Installation

Single Post Mount

- Lay the post(s) on ground, slide cabinet with mounting extrusion already attached into post slot.
- Align the cabinet flush with top of the post(s).
- Tighten the set screw in the mounting extrusions and fasten the post cap on the post(s).
- Dig one or two 8" diameter by 30" deep holes, insert sign and fill hole with concrete.
- Level the sign both horizontally and vertically.

Note: Make appropriate wiring connections per local codes.
